

Smart Style!

HTC MTeoR

The HTC MTeoR takes a giant leap forward for mobile phones as the world's first 3G Microsoft® Windows Mobile® 5.0 smartphone. Its slim and compact design makes it the ultimate pocketable handset.

Microsoft Windows Mobile 5.0 technology with Direct Push, gives you instant access to your emails. The one-hand controlled Jog Wheel provides user friendly navigation when surfing the internet and reading your documents – ideal for busy people on the run.

The options for connectivity and portability are endless by inserting a Micro SD card for additional memory and built-in Bluetooth®. Video, music and pictures can be easily synchronised, so you have them with you wherever you are. Work and play using the latest applications and multimedia player.

The HTC MTeoR is the next generation in very "smart" phones.
